November 19, 2013

To whom it may concern,

I am writing to recommend Copperstate Fire Protection, whom I have known for the past 8 months, as a candidate for your Fire Alarm System design and installation. During that time, Copperstate Fire Protection designed and installed a complete Fire Alarm System at the existing Shadow Mountain H.S. Campus in Phoenix for Paradise Valley Unified School District #69 under Sundt Construction (GC).

Copperstate Fire Protection worked directly with the school district in the months prior to construction to come up with a design that would benefit the High School, and the District Facilities Department as well as being aligned within the GMP. Copperstate Fire Protection met and at times exceeded the schedule milestones of the fast paced 10 week project. Copperstate Fire Protection was instrumental in the success of the project as they participated in daily coordination meetings between the GC and all subcontractors to ensure that their work as well as the work of others was completed in a safe, timely and quality manner. I was fortunate enough to play the role of Project Manager & Project Superintendent on this project and I can say that it was a pleasure to work with both the office and field personnel.

I have no doubt that Copperstate would be a valuable asset to your Fire Alarm System needs and I give my highest recommendation. If I can provide any further assistance, do not hesitate to contact me at 602-920-2698 or bphiggins@sundt.com

Sincerely,

SUNDT CONSTRUCTION
