

Top 10 Reasons to Consider E- Access Service

- 1. Fully Featured.** Mountain's E-Access provides all the benefits of a full featured access control system including controlling access to sensitive areas, easily adding and removing new and former employees from the access control database and reporting access control activity.
- 2. Mountain will manage your access control system for you.** No need for you to become an access control "expert". Just send us the change you need and Mountain will take care of the request for you 24/7, 365 days a year.
- 3. Want to manage your own access control system? No problem.** Mountain's E-Access Service supports customer managed access control with a simple web browser. Use Internet Explorer and connect with the access control database through Mountain's website.
- 4. No dedicated Software Required.** Mountain hosts the software application from our office in Ogden, UT. All database backups and software upgrades are completed at the central station...not your office.
- 5. No dedicated PC Required.** Mountain provides all hardware at our UL listed central station to support the E Access Service. All hardware maintenance and upgrades are completed at the central station...and not your office.
- 6. No Training Required.** With Mountain's E-Access Service we'll complete ALL database modifications for you. Or, if you choose to manage your own system, the only training required is how to add or delete a person from the database and how to generate a report.
- 7. Reduced on Site Service Call Costs.** Mountain's Service eliminates all on site technical service requests for programming support, computer maintenance and software upgrades and support.
- 8. Lower Cost of Entry.** The costs for Mountain's E-Access are lower than traditional access control systems but include the features and benefits you need.
- 9. Mountain's E-Access easily adapts to your changing business needs.** Mountain easily accommodates changes with the E Access Service. Let us know what you need and we'll work with you to provide the products and services you require.
- 10. Mountain – Your Partner for Life.** The highest quality services and products with a strong warranty from the premier security partner in the Mountain West – Mountain is the brand you can trust to meet your needs today and into the future.
