Contractor Signature

Scott Anderson

Contractor Licensing Administrator

It is the responsibility of the holder of this license, registration and/or supervisor's certificate to be familiar with the City of Fort Collins Municipal Code Chapter 15, Article V, Contractors for contractor and supervisor responsibilities.

Renewals:

A courtesy renewal notice is typically sent 1-2 months prior to the scheduled expiration of any license, registration, or supervisor certificate. However, if the notice is not sent and/or received, it is the responsibility of the contractor to ensure that the license is renewed and kept current. The license and/or supervisor certificate may be renewed provided that the biennial fee is paid and application for renewal occurs within sixty (60) days following the anniversary date. Once the sixty (60) days has passed, a new application must be submitted subject to current licensing processes and procedures.

If the adopted building code or other applicable code over which an examination was administered is no longer in effect or has been changed substantially, a renewing supervisor will be required to submit an updated passing testing that covers the most recent code year adopted or the equivalent thereof as approved by the Building Official.

It is imperative to keep address and other pertinent information current with the Building Services Department so that renewal notices and other information that may be sent throughout the year are received. Renewal notices are sent as a courtesy only. It is the responsibility of the license holder and/or supervisor certificate holder to track the date of expiration of his/her license or certificate. Any licenses or certificates not renewed within the 60 day grace period will be expired and subject to reinstatement requirements listed below, whether or not a renewal notice was received.

CONTRACTOR'S CARD
